

Psychiatric Nurse Practitioner

Hope House is seeking an engaging and independently operating Psychiatric Nurse Practitioner for a part-time opportunity with our facilities. The Psychiatric Nurse Practitioner will be working in a rehabilitation facility that works co-occurring disorders; they will be responsible diagnosing and assessing complications related to addiction recovery.

NURSE PRACTITIONER JOB DUTIES:

- Screen Patient for psychiatric problems after detoxification
- Evaluates patients and records to determine mental status
- Conducts initial psychiatric evaluations including histories and examinations
- Provides company staff with written documentation of evaluations and care, which are scanned into patient charts
- Requests Laboratory Testing including medication levels.
- Identifies normal and abnormal findings on examinations and commonly performed laboratory studies.
- Provides counseling and education regarding any new medications initiated as needed
- Manages patient health problems as appropriate in conjunction with company staff
- Initiates appropriate evaluations and emergency management for psychiatric diseases
- Responds telephonically or electronically to staff regarding inquiries or guidance on changes in patient's mental status
- Works with company staff regarding education components for clients who are dually diagnosed
- Provides staff with education regarding patient problems and supporting materials and/or in-service sessions periodically in collaboration with the nursing staff.
- Collaborate with the Medical or Executive Director(s) on collaborative care and best practices as deemed necessary.
- Completes annual HIPAA Training.

Hope House is looking for professionally minded individuals that will uphold our corporate values including unconditional kindness and professionalism. We have been in business for over thirty years experiencing continual growth and name recognition in the field of drug and addiction rehabilitation.
